CLASS/CLASSES INVOLVED : **I-VII**
DATE : **11.2.2023**

A BRIEF REPORT:

It is not what you do for your children, but what you have taught them to do for themselves that will make them successful human beings. - Ann Landers

Today’s parents are believed to be in constant pressure to get everything exactly "right"- -a pursuit of perfection that probably makes it feel difficult. Parenting is a learning journey and children don’t come with instruction manuals. Therefore, it is imperative for parents to participate in parenting workshops, which are crafted to help them become more empowered. This session at DPS Kangra, made our parents feel refreshed about their parenting skills, learn some wonderful new ways to positively parent and to develop some strategies for dealing with challenging behaviour. The session showcased a brief segment about various learning activities used in everyday classes for the enhancement of knowledge.

❖ **EVENT** : **DAILY LEARNING ACTIVITIES**
CLASS/CLASSES INVOLVED : Pre-nursery-vVII
DATE : 3.3.2022

A BRIEF REPORT:

Useful learning activities are ones where the student is able to take what they have learnt from engaging with the activity and use it in another context, or for another purpose. It is equally important that each activity is meaningful, and ensures student development and advancement through the unit. Activities should build on previous activities and avoid being repetitive, they should enable students to engage with and develop their skills, knowledge and understanding in different ways. Meaningful activities engage students in active, constructive, intentional, authentic, and cooperative ways.

- ❖ **EVENT** : **CELEBRATING COLOURS**
- CLASS/CLASSES INVOLVED** : Pre-nursery-Prep
- DATE** : 3.3.2022

A BRIEF REPORT:

Colors play a vital role in the design and everyday life and they are the reason why color theory even exists. Color can make us feel a certain way when we see it depending on whether we like that particular color or not. We can also associate memories and thoughts with certain colors. It is a powerful communication tool and can be used to signal action, influence mood, and even influence physiological reactions. Certain colors have been associated with increased blood pressure, increased metabolism, and eyestrain. Designers have long believed that color can dramatically affect feelings, emotions, and choices we make. Our little Dipsites celebrated colours of life.
